ISSUING ENFORCEMENT AGENCY
Kern County Health Department

PERMIT

This permit is granted solely to the operator named above, and is not transferrable.

Upon a change of operator, this permit is subject to revocation.

Upon a significant change in design or operation from that described by the Plan of Operation or the Report of Station or Disposal Site Information, this permit is subject to revocation, suspension, or modification.

This permit does not authorize the operation of any facility contrary to the State Minimum Standards for Solid Waste Handling and Disposal.

This permit cannot be considered as permission to violate existing laws, ordinances, regulations, or statutes of other government agencies.

The attached permit findings, conditions, prohibitions, and requirements are by this reference incorporated herein and made a part of this permit.

Findings

Page -1-

1. This facility is an existing (since November 1973) 40 acre Class III Sanitary Landfill; site life is expected to be eleven (11) years. The modified trench method of operation is utilized. The facility is located at NW 1/4 of NE 1/4 Section 3, T.10N., R.12W., S.B.B. & M. The disposal site receives forty-two (42) tons per day. The site is operated from 8 a.m. to 5 p.m. November through February; 8 a.m. to 6 p.m. March, April, September and October; 8 a.m. to 7 p.m. May through August, and salvage operations are conducted. Types of wastes received at the site include the following Group III wastes:

- a) Residential
- b) Demolition materials
- c) Commercial

The site includes a waste reservoir building containing a transfer trailer to be used during periods of high winds.

2. Design and operation of this facility are as specified by the 5-year Permit Review Report of April 11, 1985. There are no significant changes in design or operation.
3. Land within 1,000 feet of the site is zoned as follows:
 - a) A-2 General Agricultural
4. This facility's design and operation are currently in substantial compliance with State Minimum Standards as determined by physical inspection made on March 25, 1986.
5. This permit is consistent with the Kern County Solid Waste Management Plan and with the State Minimum Standards for Solid Waste Handling and Disposal.
6. The following documents condition operation of this facility:
 - a) California Regional Water Quality Control Board, Lahontan Region:
Waste Discharge Requirements
No. 6-84-50
 - b) Kern County CUP #7, Map 213
7. The Kern County Fire Department has determined that the facility is in compliance with the Public Resources Code, Sections 4373 and 4374.
8. The facility is in conformity with the Kern County General Plan.
9. This permit is consistent with the Standards of the California Waste Management Board.

Requirements

1. This facility must comply with the State Minimum Standards for Solid Waste Handling and Disposal.
2. This facility must comply with all federal, state, and local requirements and enactments.
3. Additional information concerning the design and operation of this facility must be furnished upon request of the enforcement agency.
4. At the discretion of the local enforcement agency, landfill gas probes shall be installed for detection of migration. The requirement for a landfill gas control system can thus be established.
5. A compliance schedule shall be developed to meet the CAC Title 23 Subchapter 15 requirements within thirty (30) days.
6. Hospital wastes or loads containing hospital wastes will be placed separate from refuse in an area designated by the contractor. They will be covered immediately with 12" of soil prior to compaction. Said area shall be defined in a site plan, certified by a registered engineer.

Prohibitions

The following actions are prohibited at the facility:

1. Disposal of hazardous waste.
2. Disposal of liquid waste.
3. Open burning.
4. Scavenging.
5. The salvage of drugs, cosmetics, foods, beverages, hazardous chemicals, poisons, medical wastes, syringes, needles, pesticides and other similar materials capable of impairing public health.

Specifications

1. No significant change in design or operation from that described in the Findings Section is allowed, except for those changes which are required under the Conditions Section of this permit.
- .. Operator shall have adequate communications facilities available to site personnel.

- . Storage of materials salvaged from solid waste shall be ancillary to the operation of the disposal site unless such storage is planned as an integral part of the operation.
- 4. The operator shall take adequate measures to minimize the creation of dust.
- 5. This facility has a permitted daily capacity of forty-two (42) tons per day and shall not receive significantly more than forty-two (42) tons per day of solid waste unless it first obtains a modification of this permit. The remaining capacity of this landfill is 330,000 cubic yards.

Provisions

- 1. The following provisions must be met:
 - (a) Operator shall post signs on all internal roads giving directions to operating area.
 - (b) Operating and maintenance personnel shall be required to wear and use approved safety equipment.
 - (c) Personnel assigned to operate the site shall be adequately trained in site operations and maintenance.
- 2. This permit is subject to review by the local enforcement agency and may be suspended, revoked, or modified for sufficient cause.

Self Monitoring Program

- 1. The following items shall be monitored by the operator of this facility or his agent. Records including but not limited to these items shall be kept and made available to the enforcement agency upon request:
 - 1. Weights or volumes received accurate to within 10%.
 - 2. Length and depth of any cuts made in natural terrain.
 - 3. Log Book of special occurrences such as fires, earthslides, injuries, explosions, flooding, etc.
- 2. Results of unsaturated zone monitoring shall be forwarded to the Kern County Health Department.

California Waste Management Board
1020 Ninth Street, Suite 300
Sacramento, California 95814

Pursuant to the standard conditions contained in the Public Resources Code Sections 4373 & 4374, the local fire protection district has determined that the Mojave-Rosamond Sanitary Landfill/Transfer Station is in compliance (clearance required from the periphery of exposed flammable solid wastes).

Kern County Fire Department

3-26-1986
Date

CALIFORNIA WASTE MANAGEMENT BOARD
Solid Waste Facilities Permit Decision #86-49
July 10-11, 1986

WHEREAS, the Kern County Division of Environmental Health, Department of Health has submitted to the Board for its review and concurrence, a Solid Waste Facilities Five Year Review Permit regarding the Mojave-Rosamond Sanitary Landfill as required by Title 14 of the California Administrative Code; and

WHEREAS, Board staff has evaluated this five year review submittal for consistency with the tenets of aforementioned Title 14, in comparison to the original Permit, and encountered no significant changes; and

WHEREAS, design and operational changes in sloping of final grade to comply with newly enacted regulations, and construction of a waste reservoir building for the purpose of restricting refuse on site in keeping with existing regulations, constitute efficiency upgrading; and

WHEREAS, the small increase of incoming refuse reflects normal population increase, increased tourist and commercial traffic, and public awareness of landfill purpose and convenience of use; and

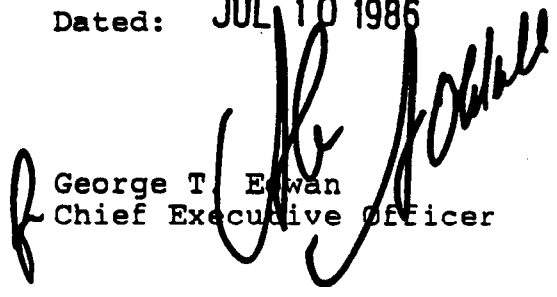

NOW, THEREFORE, BE IT RESOLVED that the California Solid Waste Management Board finds the Mojave-Rosamond Sanitary Landfill Site to be in conformance with Title 14, Chapter 3, Minimum Standards for Solid Waste Handling and Disposal; and

BE IT FURTHER RESOLVED that the California Waste Management Board concurs with the reason for the permit submittal, as proposed by the Local Enforcement Agency, and with insignificant changes appearing on the modified Solid Waste Facilities Permit No. 15-AA-058.

CERTIFICATION

The undersigned Chief Executive Officer of the California Waste Management Board does hereby certify that the foregoing is a full, true and correct copy of a resolution duly and regularly adopted at a meeting of the California Waste Management Board held on July 10-11, 1986.

Dated: JUL 10 1986

George T. Ewan
Chief Executive Officer
